BAB I  
PENDAHULUAN 1.1 Latar Belakang  
Seiring dengan perkembangan teknologi informasi, maka paradigma lama tentang perpustakaan sudah mulai perlahan ditinggalkan. Perpustakaan yang awalnya hanya dikenal sebagai tempat penyimpan bahan pustaka sudah mulai mendapat perhatian dari beberapa kalangan yang merasakan informasi sebagai sebuah kebutuhan. Selain itu, kehadiran internet yang menjadi tonggak sejarah memasuki era digital menjadi bagian yang amat sulit dipisahkan dari kehidupan umat manusia. Berbagai fasilitas yang disediakan oleh internet telah menjadi salah satu alat bantu masyarakat untuk berkomunikasi, mencari informasi dan melakukan bisnis. Perkembangan teknologi informasi dan komunikasi (ICT) membawa perubahan dalam berbagai sektor, termasuk perpustakaan. Tahun 2010, OCLC's Market Research Reports menyatakan bahwa 84% pengguna informasi menggunakan search engines di internet. Penelitian tersebut juga menyebutkan bahwa 90% dari pengguna search engines senang menggunakan fasilitas tersebut. Sedangkan 2% dari pengguna informasi menggunakan OPAC (Online Public Access Cataloging) sebagai sumber pertama dalam penelusuran informasi. ADDIN CSL\_CITATION {"citationItems":[{"id":"ITEM-1","itemData":{"author":{"dropping-particle":"","family":"OCLC","given":"","non-dropping-particle":"","parse-names":false,"suffix":""},"id":"ITEM-1","issued":{"date-parts":["2010"]},"title":"OCLC's Market Research Reports","type":"report"},"uris":["http://www.mendeley.com/documents/?uuid=4268101f-721b-4412-9058-e64ae27414c0"]},"mendeley":{"formattedCitation":"(OCLC, 2010)","manualFormatting":"(OCLC, 2010: 9)","plainTextFormattedCitation":"(OCLC, 2010)","previouslyFormattedCitation":"(OCLC, 2010)","properties":{"noteIndex":0},"schema":"https://github.com/citation-style-language/schema/raw/master/csl-citation.json"}(OCLC, 2010: 9). Keberadaan ICT akan memudahkan perpustakaan dalam mengaplikasikan konsep manajemen ilmu pengetahuan.
