

ANESTHESIA

A Comprehensive Review

SIXTH EDITION

Brian A. Hall, MD

*Assistant Professor of Anesthesiology
College of Medicine, Mayo Clinic
Rochester, Minnesota*

Robert C. Chantigian, MD

*Associate Professor of Anesthesiology
College of Medicine, Mayo Clinic
Rochester, Minnesota*

Contents

PART 1 Basic Sciences

- 1 Anesthesia Equipment and Physics, 1
Answers, Explanations, and References, 10
- 2 Respiratory Physiology and Critical Care Medicine, 32
Answers, References, and Explanations, 39
- 3 Pharmacology and Pharmacokinetics of Intravenous Drugs, 54
Answers, References, and Explanations, 65
- 4 Pharmacology and Pharmacokinetics of Volatile Anesthetics, 94
Answers, References, and Explanations, 101

PART 2 Clinical Sciences

- 5 Blood Products, Transfusion, and Fluid Therapy, 112
Answers, References, and Explanations, 116
- 6 General Anesthesia, 124
Answers, References, and Explanations, 138
- 7 Pediatric Physiology and Anesthesia, 164
Answers, References, and Explanations, 172
- 8 Obstetric Physiology and Anesthesia, 196
Answers, References, and Explanations, 204
- 9 Neurologic Physiology and Anesthesia, 226
Answers, References, and Explanations, 233
- 10 Anatomy, Regional Anesthesia, and Pain Management, 253
Answers, References, and Explanations, 263
- 11 Cardiovascular Physiology and Anesthesia, 283
Answers, References, and Explanations, 294

Index, 311
