**Triglycerides: The Role in Diabetes
and Atherosclerosis**

Volume Editors:

Antonio M. Gotto, Jr., Rodolfo Paoletti

Volume 22

Contents

- 1 Metabolic Consequences of Hypertriglyceridemia
James Shepherd and Christopher J. Packard
- 9 A Cellular Basis for the Atherogenicity of Triglyceride-Rich Lipoproteins
Sandra H. Gianturco and William A. Bradley
- 15 Role of Hypertriglyceridemia in Abnormal High-Density Lipoprotein ApoA-I Metabolism
Henry N. Ginsberg, Colleen Ngai, and Rajasekhar Ramakrishnan
- 21 Lipoprotein Lipase: Sites of Synthesis and Sites of Action
Thomas Olivecrona, Gunilla Bengtsson-Olivecrona, Tova Chajek-Shaul, Yvon Carpentier, Richard Deckelbaum, Magnus Hultin, Jonas Peterson, Josef Patsch, and Senén Vilaró
- 27 Insulin Regulation of Triglyceride Metabolism
George Steiner
- 33 Sex Hormone Control of Triglyceride Metabolism
Robert H. Knopp
- 39 Diabetic Hypertriglyceridemia: Lipid and Lipoprotein Changes in Relation to Diabetes
Daniel Pometta and Richard W. James
- 47 Postprandial Dyslipidemia and Coronary Artery Disease
Josef R. Patsch
- 51 Triglycerides and Atherosclerosis: Results from the Prospective Cardiovascular Münster Study
Gerd Assmann and Helmut Schulte
- 59 The Impact of Triglycerides on Coronary Heart Disease: The Framingham Study
Peter W. F. Wilson, Keaven M. Anderson, and William P. Castelli

- 65 Triglycerides and Coronary Heart Disease: Epidemiologic, Statistical, and Genetic Issues
Melissa A. Austin
- 71 The Prognostic Value of Triglycerides in Coronary Heart Disease: Findings from the Helsinki Heart Study
Vesa Manninen, Leena Tenkanen, Jussi K. Huttunen, and M. Heikki Frick
- 75 Triglycerides and Coronary Heart Disease
Michael H. Criqui
- 81 Hypertriglyceridemia, Triglyceride-Rich Lipoproteins, and Coronary Atherosclerosis
Anders Hamsten, Per Tornvall, Jan Johansson, Fredrik Karpe, and Lars A. Carlson
- 87 Plasma Triglyceride-Rich Lipoproteins and Peripheral Atherosclerosis
Anders G. Olsson, Uno Erickson, Jörgen Mölgaard, and Gunnar Ruhn
- 93 The Low High-Density Lipoprotein/Hypertriglyceridemia Syndrome as a Genetic Risk: A Factor For Coronary Atherosclerosis
D. J. Galton
- 97 The Insulin Resistance Syndrome: An Epidemiological Overview
P. M. McKeigue
- 101 Plasma Triglycerides and Cardiovascular Risk in the Population of Mauritius with High Prevalence of Non-Insulin-Dependent Diabetes Mellitus
Jaakko Tuomilehto, K. George M. M. Alberti, Gary Dowse, Farooq Hemraj, Djamil Fareed, Hassam Gareeboo, Pierrot Chitson, Zhang Min, and Paul Zimmet
- 107 Dyslipidemic Hypertension in Families with Hypertension, Non-Insulin-Dependent Diabetes Mellitus, and Coronary Heart Disease
R. R. Williams, S. C. Hunt, L. L. Wu, P. N. Hopkins, M. C. Schumacher, S. Elbein, S. Hasstedt, J. M. Lalouel, B. M. Stults, and H. Kuida

- 113 Abdominal Obesity and Risk for Cardiovascular Disease and Diabetes
P. Björntorp
- 119 Insulin, Glucose Tolerance, Triglycerides, and Coronary Heart Disease: A 12-Year Follow-Up in Normal Men
R. L. Logan, A. Hargreaves, R. A. Riemersma, R. Elton, K. D. Buchanan, and M. F. Oliver
- 125 Hyperlipidemias and the Fibrinolytic System
L. Mussoni, L. Mannucci, M. Camera, L. Sironi, and E. Tremoli
- 131 Interrelation of Lp(a) with Plasma Triglycerides
Gert M. Kostner
- 137 Plasma Lp(a) Patterns After Triglyceride Infusion
M. Rosseneu, C. Labeur, N. Vinaimont, J. P. De Slypere, and E. Matthys
- 145 Diet in the Treatment of Hypertriglyceridemia
P. J. Nestel
- 149 Effect of Bile Acid Sequestrants on Triglyceride Metabolism
Sverker Ericsson and Bo Angelin
- 155 Biguanides in Hypertriglyceridemia and in the Management of Arterial Disease
Cesare R. Sirtori and Maria R. Lovati
- 163 The Influence of Fibrates on Lipoprotein Metabolism
James Shepherd, Bruce Griffin, Muriel Caslake, Allan Gaw, and Christopher Packard
- 171 Treatment of Hypertriglyceridemia: Exercise
Peter D. Wood
- 179 Controlling Hypertriglyceridemia in Diabetes
Antonio M. Gotto
- 183 The Glucose-Fatty Acid Cycle: Biochemical Aspects
Philip J. Randle
- 189 Molecular Basis for the Randle Hypothesis in Patients with Non-Insulin-Dependent Diabetes Mellitus
Allan Vaag and Henning Beck-Nielsen

- 193 Metabolic Effects of Acipimox in Non-Insulin-Dependent Diabetes Mellitus
K. G. M. M. Alberti, G. Fulcher, and M. Walker
- 197 Nicotinic Acid and Acipimox: Similarities and Differences
Göran Walldius and Per Tornvall
- 201 Improvement of Atherogenic Risk Factors with Acipimox in Non-Insulin-Dependent Diabetic Subjects
R. S. Scott, C. J. Lintott, J. M. Bremer, B. Shand, and W. H. F. Sutherland
- 207 The Action of Nicotinic Acid and Its Analogues on Lipoprotein Metabolism
James Shepherd
- 213 Effects of Acipimox on Plasma Lipoproteins of Hyperlipidemic Human Subjects
P. J. Barter, L. Nelson, S. Devlin, and P. Jenkins
- ✓ 217 Long-Term Safety Profile of Acipimox: Pharmacological Basis and Clinical Evidence
B. M. Buckley
- 225 Subject Index
