

CORNEAL TRANSPLANTATION

An Immunological Guide to the Clinical Problem

John V. Forrester

Lucia Kuffova

University of Aberdeen Medical School

Imperial College Press

Contents

<i>Preface</i>	ix
1. A Brief History of Corneal Transplantation	1
2. Surgery of Corneal Graft in Humans	8
3. The Clinical Problem	31
4. Eye Banking	46
5. MHC Antigens, Tissue Typing and Blood Group Matching in Corneal Transplantation	60
6. The Alloresponse to Corneal Graft	75
7. The Xenoreponse to Corneal Graft	107
8. Animal Models of Corneal Graft	119
9. Pathology of Human Corneal Transplantation	136
10. Therapeutic Approach to Experimental Corneal Graft Rejection	143
11. Immunosuppression for Human Corneal Graft Rejection	158
12. Transmission of Disease Through Corneal Transplantation	169
13. Artificial Corneas	178
<i>Index</i>	187
