

The background of the book cover is a composite image. On the left, a vibrant rainbow arches over a misty landscape with trees and hills. In the foreground, two children stand on a grassy slope, looking towards the rainbow. On the right side, a portion of a modern staircase with a metal railing is visible.

2nd edition

Disorders of Childhood Development and Psychopathology

Robin Hornik Parritz
Michael F. Troy

**International
Edition**

Detailed Contents

About the Authors	xv
Preface	xvii
Acknowledgments	xix

CHAPTER 1

Introduction 1

Defining Disorders of Infancy, Childhood, and Adolescence 2

What Is Normal? 2

Statistical Deviance	3
Sociocultural Norms	3
Mental Health Definitions	3

The Role of Values 3

Poor Adaptation	3
<i>The Case of Dylan</i>	

■ BOX 1.1 THE CHILD IN CONTEXT: The Irreducible Needs of Children 4

Adequate Adaptation	4
<i>The Case of Antoine</i>	

Optimal Adaptation	4
<i>The Case of Jenna</i>	

The Impact of Values on Definitions of Disorder	5
-------------------------------------------------	---

Definitions of Psychopathology and Developmental Psychopathology 6

Rates of Disorders in Infancy, Childhood, and Adolescence 6

Allocation of Resources, Availability and Accessibility of Care 7

The Globalization of Children's Mental Health 8

■ BOX 1.2 THE CHILD IN CONTEXT: The Stigma of Mental Illness 9

The Stigma of Mental Illness	9
------------------------------	---

CHAPTER 2

Models of Child Development, Psychopathology, and Treatment 11

<i>The Case of Max</i>	
<i>The Case of Maggie</i>	

The Role of Theory in Developmental Psychopathology 12

Continuous and Discontinuous Models 13

Physiological Models 13

Historical and Current Conceptualizations	13
■ BOX 2.1 EMERGING SCIENCE: Genomics, Behavior Genetics, and Developmental Psychopathology	15
Thinking About Max	16
Thinking About Maggie	17

Psychodynamic Models 17

Historical and Current Conceptualizations	17
Thinking About Max	18
Thinking About Maggie	18

Behavioral and Cognitive Models 18

Historical and Current Conceptualizations	18
Thinking About Max	19
Thinking About Maggie	19

Humanistic Models 19

Historical and Current Conceptualizations	19
Thinking About Max	20
Thinking About Maggie	20

Family Models 20

Historical and Current Conceptualizations	20
Thinking About Max	22
Thinking About Maggie	22

Sociocultural Models 22

Historical and Current Conceptualizations	22
Thinking About Max	25
Thinking About Maggie	25

CHAPTER 3

Principles and Practices of Developmental Psychopathology 27

The Framework of Developmental Psychopathology 28

Developmental Pathways, Stability, and Change 29

Competence and Incompetence 32

<i>The Case of Ryan</i>	
<i>The Case of Jasmine</i>	

■ BOX 3.1 THE CHILD IN CONTEXT: Parental Views of Child Competence in a Village Community 34

Risk and Resilience 34

Risk and Risk Factors	35
Resilience and Protective Factors	37
■ BOX 3.2 RISK AND RESILIENCE: "Ordinary Magic"	38
Multicultural Research on Risk and Resilience	40
A Lifespan Approach to Risk and Resilience	41

Research Strategies in Developmental Psychopathology 41

Cross-Sectional and Longitudinal Approaches	42
■ BOX 3.3 RISK AND RESILIENCE: The Kauai Longitudinal Studies	43
Complex Hypotheses and Complex Models	43
Research in Real-World Settings with Practical Applications	44

CHAPTER 4

Classification, Assessment and Diagnosis, and Intervention 46

Classification 47

- Categorical (Clinical) Classification 47
- Dimensional (Empirical) Classification 48
- Developmental Contributions to Classification Systems 50
- Cultural Contributions to Classification Systems 51
- The Phenomenon of Comorbidity 51

Assessment and Diagnosis 52

- Definitions of Assessment and Diagnosis 52
- Methods and Processes of Assessment 53
 - The Case of Alicia*
 - The Case of David*
 - The Case of Tyler*
- **BOX 4.1 THE CHILD IN CONTEXT:** Agreement and Disagreement Between Parents and Children 56
- **BOX 4.2 CLINICAL PERSPECTIVES:** Summary of Information Provided by the CBCL 58

Intervention 59

- The Efficacy of Psychotherapy for Children and Adolescents 60
- Primary, Secondary, and Tertiary Interventions 61
- Working with Children 62
- Working with Parents and Families 62
- Working with Schools and Communities 63

CHAPTER 5

Disorders of Early Development 65

Developmental Tasks and Challenges Related to Physiological and Emotional Functioning 66

- Temperament 66
- Newborn Characteristics 67
- Caregiver Characteristics 67
- Goodness of Fit 68

Temperament over Time 68

- **BOX 5.1 EMERGING SCIENCE:** Differential Susceptibility: Interactions among Genes, Temperament, and Parenting 69

Temperament and Psychopathology 69

Disorders of Early Development 70

- Avoidant/Restrictive Food Intake Disorder 71
 - The Case of Alex*
 - The Case of Jessica*
- Sleep–Wake Disorders 73
 - The Case of Cassandra*
- Disorders of Regulation 74
 - The Case of Sara*
 - The Case of Noah*
 - The Case of Amanda*
- Some Cases Revisited 77

CHAPTER 6

Disorders of Attachment 79

Developmental Tasks and Challenges Related to Attachment 80

- Individual Differences in Attachment 80

- **BOX 6.1 THE CHILD IN CONTEXT:** Attachment Across Cultures 81

- Factors Influencing the Development of Attachment 83
- Outcomes of Early Attachment 83
- Attachment and Psychopathology 83

Disorders of Attachment 84

- The Case of Andreas: Reactive Attachment Disorder*
- The Case of Julia: Disinhibited Social Engagement Disorder*
- **BOX 6.2 RISK AND RESILIENCE:** Children in Romanian Orphanages: Risks, Interventions, and Outcomes 86

Developmental Course 87

Etiology 88

- Caregiving Factors 88
- Parent Factors 88
- Child Factors 89

Assessment and Diagnosis 89

- History Taking and Interviews 89
- Questionnaires and Structured Tasks 90
- Observations 90
- Assessments in Older Children and Adolescents 90

Intervention 90

- Prevention Strategies 90
- Child Treatment 91
- Infant–Parent Psychotherapy 92

CHAPTER 7

Intellectual Developmental Disorder and Learning Disorders 94

Developmental Tasks and Challenges Related to Intelligence and Cognition 95

- **BOX 7.1 THE CHILD IN CONTEXT:** A Look Back at History—The Eugenics Movement 96
- Components and Mechanisms of Intelligence 96
- Development of Cognitive and Intellectual Functioning 97
- Heredity and the Environment 97

Intellectual Developmental Disorder 98

- The Case of Katherine*
- **BOX 7.2 THE CHILD IN CONTEXT:** Changing Names, Changing Stigma? 100
- Genotypes and Behavioral Phenotypes 101
- Comorbid Disorders 103

Etiology 103

Developmental Course 105

- Physical and Neurological Domains 105
- Intelligence, Language, and Communication 105
- Social, Emotional, and Personality Development 106
- **BOX 7.3 THE CHILD IN CONTEXT:** Teachers' Attitudes Toward Inclusion 107
- Maladaptive Behavior and Psychopathology 107
- Adult Outcomes 108
- The Role of the Family 108

Assessment and Diagnosis 109

- Background Information 109
- Assessment of Intellectual Functioning 109
- Assessment of Adaptive Functioning 110

Intervention 110

- Genetic Screening and Prevention Strategies 111
- **BOX 7.4 EMERGING SCIENCE:** Ethical Issues in Prenatal Genetic Counseling 111
- Pharmacological Treatment 111
- **BOX 7.5 RISK AND RESILIENCE:** Prevention and Fetal Alcohol Syndrome 112
- Psychological Treatment 112
- Family Education and Support 113

Learning Disorders 113

The Case of Ethan

Developmental Course 115**Etiology 115**

- **BOX 7.6 RISK AND RESILIENCE:** “Words Failed, Then Saved Me” 116

Assessment, Diagnosis, and Intervention 118**CHAPTER 8****Autism Spectrum Disorder 119**

The Case of Mark

The Case of Will

Historical and Current Conceptualizations of Autism Spectrum Disorder 120**Developmental Tasks and Challenges Related to the Coordination of Social, Emotional, and Cognitive Domains 121**

- Social Cognition 121
- Theory of Mind 122
- Affective Social Competence 122

Autism Spectrum Disorder 122

- Social and Communication Deficits 123
- **BOX 8.1 EMERGING SCIENCE:** The Role of the Face 124
- Repetitive Behaviors and Fixated Interests 127
- Prevalence and Related Information 127
- **BOX 8.2 CLINICAL PERSPECTIVES:** Splinter Skills and Savant Talents 128

Developmental Course 129

- Social and Communication Pathways 129
- **BOX 8.3 THE CHILD IN CONTEXT:** Early Home Videos of Children with Autism Spectrum Disorder 130
- Behavior Pathways 132
- The Role of the Family 132

Etiology 132

- Early Hypotheses 132
- Genes and Heredity 133
- Physiological Factors 133
- Child Factors 134

Assessment and Diagnosis 135

- Parent Interviews 136
- Checklists, Rating Scales, and Observations 136
- Differential Diagnosis and Comorbid Disorders 136

Intervention 136

- Pharmacological Treatment 137

Psychological Treatment 137

School-Based Programs 138

- **BOX 8.4 CLINICAL PERSPECTIVES:** The TEACCH Model of Intervention 138

Long-Term Treatment 139

CHAPTER 9**Attention Deficit/Hyperactivity Disorder 140****Developmental Tasks and Challenges Related to Self-Regulation, Effortful Control, and Executive Function 141****Attention Deficit/Hyperactivity Disorder 143**

The Case of Christopher

The Case of Tamara

Core Characteristics 144

Associated Difficulties and Domains of Impairment 145

Gender, Ethnicity, and Age 146

Comorbid Disorders 147

Developmental Course 148

Early Childhood Precursors 148

Child, Adolescent, and Family Outcomes 149

Adult Outcomes 150

Etiology 150

Genes and Heredity 150

Physiological Factors 150

Psychological Factors 151

Family and Environmental Factors 152

Assessment and Diagnosis 153

Diagnostic Interviews 153

Rating Scales 154

Observations 154

Other Sources of Information 154

Differential Diagnosis 155

Intervention 155

Pharmacological Treatment 155

- **BOX 9.1 CLINICAL PERSPECTIVES:** The MTA Cooperative Group Study 156

Psychosocial Treatment 157

- **BOX 9.2 CLINICAL PERSPECTIVES:** Medication and Children 158

School Interventions 159

Interventions with Adults 159

Future Trends 159

CHAPTER 10**Oppositional Defiant Disorder and Conduct Disorder 161**

- **BOX 10.1 THE CHILD IN CONTEXT:** Historical Perspectives on Bad Behavior 162

Developmental Tasks and Challenges Related to Prosocial Behavior 163

A Developmental Perspective on Bullying 166

Oppositional Defiant Disorder 168

The Case of Brad

The Case of Nick

Conduct Disorder 169

The Case of Lucas

The Case of Elena

Developmental Course 171

Oppositional Defiant Disorder 172

The Coercion Model 173

The Transactional Model 173

Conduct Disorder 174

Developmental Cascade Models 174

Etiology 175

Genes and Heredity 175

Physiological Factors 176

Child Factors 176

Parent and Family Factors 177

Peer Factors 179

Sociocultural Factors 180

Assessment and Diagnosis 180

Intervention 181

Child Treatments 181

■ **BOX 10.2 CLINICAL PERSPECTIVES:** The Early Risers Program 182

Parent Treatments 182

Comprehensive, Peer, School, and Residential Programs 183

Prevention 184

CHAPTER 11

Anxiety Disorders, Obsessive-Compulsive Disorder, and Somatic Symptom Disorders 187

Developmental Tasks and Challenges

Related to Fears, Worries, and Emotion Regulation 188

Anxiety Disorders 190

The Case of Sophie: Separation Anxiety Disorder

The Case of Jack: Phobic Disorder

The Case of Aisha: Social Phobia

The Case of Miranda: Generalized Anxiety Disorder

The Case of Lauren: Panic Disorder

Obsessive-Compulsive Disorder 195

The Case of Danny

Somatic Symptom Disorders 196

The Case of Estella

Developmental Course 197

Continuity and Course of Anxiety Disorders 197

Continuity and Course of Obsessive-Compulsive Disorder 198

Continuity and Course of Somatic Symptom Disorders 198

Etiology 199

Genes and Heredity 199

Physiological Factors 199

Child Factors 200

■ **BOX 11.1 EMERGING SCIENCE:** Tripartite Model of Anxiety and Depression 201

Parent Factors 202

Assessment and Diagnosis 203

Intervention 204

Psychological Treatment 204

Pharmacological Treatment 207

CHAPTER 12

Mood Disorders and Suicidality 209

Developmental Tasks and Challenges Related to the Construction of Self and Identity 210

Depressive Disorders 212

The Case of Rebecca

The Case of Jacob

The Case of Zoey

■ **BOX 12.1 RISK AND RESILIENCE:** Gender Differences in Depression in Adolescence 217

The Case of Kareem

Bipolar Disorder 218

Developmental Course 219

Continuity of Depressive Disorders 219

Comorbidity Across Time 220

Continuity of Bipolar Disorder 220

Etiology 220

Depressive Disorders 220

Bipolar Disorders 225

Assessment and Diagnosis 226

Assessment and Diagnosis in Children 226

Assessment and Diagnosis in Adolescents 227

Intervention 227

■ **BOX 12.2 CLINICAL PERSPECTIVES:** Developmental and Ethical Issues Related to the Use of Antidepressant Medication in Children and Adolescents 228

Pharmacological Treatment 229

Child Treatment 230

Family Treatment 230

Prevention Efforts 231

Suicidality 231

■ **BOX 12.3 CLINICAL PERSPECTIVES:** Self-Harm in Adolescence 233

CHAPTER 13

Maltreatment and Trauma- and Stressor-Related Disorders 237

Developmental Tasks and Challenges Related to Stress and Coping 238

Maltreatment 242

The Case of Kyle

Trauma- and Stressor-Related Disorders 243

The Case of Natasha

Developmental Course 247

Maltreatment 247

■ **BOX 13.1 CLINICAL PERSPECTIVES:** Developmental Trauma Disorder 248

■ **BOX 13.2 EMERGING SCIENCE:** Maltreatment and Mood Disorders 250

The Case of Deion

Trauma- and Stressor-Related Disorders 251

Etiology 253

- Maltreatment 253
- Trauma- and Stressor-Related Disorders 254

Assessment and Diagnosis 255**Intervention 256**

- Treatment 256
- Prevention 257

CHAPTER 14**Substance Use and Addictive Disorders 259****Developmental Tasks and Challenges Related to Brain Development and Risk Taking 260****Substance Use and Addictive Disorders 262**

The Case of Elijah

The Case of Nora

- Alcohol Use and Alcohol-Related Disorders 265
- Smoking and Tobacco-Related Disorders 266
- Marijuana and Cannabis-Related Disorders 267
- Other Commonly Abused Substances and Disorders 267
- Comorbid Disorders 269

Developmental Course 269

- Pathways Involving Alcohol 270
- Pathways Involving Smoking 270
- Pathways Involving Other Drugs 271
- The Gateway Hypothesis, Common Factors Model, and Developmental Cascade Models 271
- Substance Abuse and Other Problematic Behaviors 272

Etiology 273

- Genes and Heredity 273
- Physiological Factors 274
- Child Factors 274
- Parent and Family Factors 276
- Social and Cultural Factors 276

Assessment and Diagnosis 277**Intervention 277**

- Prevention 277
- Treatment 278

CHAPTER 15**Eating Disorders 282****Developmental Tasks and Challenges Related to Eating and Appearance 283****Eating Disorders 285**

The Case of Elizabeth

The Case of Kayla

Developmental Course 289**Etiology 290**

- Genes and Heredity 291
- Physiological Factors 292
- Child Factors 292
- Parent and Family Factors 293
- Environmental Factors 294

Assessment and Diagnosis 294**Intervention 294**

- Prevention 294
- Treatment 295
