

# **EFFECTS OF INSECTICIDES ON INVERTEBRATES IN TEMPORARY PONDS IN THE SAHEL**

**Ecotoxicology, ecological risk assessment and  
minimizing side-effects of locust control**

**Joost Lahr**

## CONTENTS

<i>Chapter 1</i>	General introduction	1
<b>PART 1 - ECOLOGY OF TEMPORARY PONDS</b>		<b>17</b>
<i>Chapter 2</i>	Ecotoxicology of organisms adapted to life in temporary freshwater ponds in arid and semi-arid regions	19
<i>Chapter 3</i>	Phenology of invertebrates living in a Sahelian temporary pond	33
<b>PART 2 - ASSESSMENT OF TOXIC EFFECTS</b>		<b>55</b>
<i>Chapter 4</i>	Ecological effects of experimental insecticide applications on invertebrates in Sahelian temporary ponds	57
<i>Chapter 5</i>	Acute toxicity of locust insecticides to two indigenous invertebrates from Sahelian temporary ponds	83
<b>PART 3 - MINIMIZING SIDE-EFFECTS OF LOCUST CONTROL</b>		<b>101</b>
<i>Chapter 6</i>	An ecological assessment of the hazard of insecticides used in desert locust control, to invertebrates in temporary ponds in the Sahel	103
<i>Chapter 7</i>	Buffer zones to protect temporary pond invertebrates from ground-based insecticide applications against desert locusts	119
<i>Chapter 8</i>	Concluding remarks	137
