<i>Foreword by Arvid Kappas</i>	xv
<i>Preface</i>	xix
<i>Acknowledgments</i>	xxii

<b>PART I: A biosocial view of emotion</b>	<b>1</b>
<b>1 A developmental-interactionist theory of emotion</b>	<b>3</b>
The essences of emotion	4
Developmental-interactionist theory	8
Relating emotion and cognition	15
A biosocial synthesis of emotion	25
<b>PART II: Biological emotions: a readout view</b>	<b>31</b>
<b>2 Neurochemical systems: evolution and function</b>	<b>33</b>
Neurochemical systems: neurotransmission and neuromodulation	34
The evolution of neurochemical systems	38
Neurochemical systems: structure and function	42
Conclusions: emotion and the arousal/arousability of neurochemical systems	58
<b>3 Structure of neurochemical systems of emotion</b>	<b>64</b>
The central nervous system as a hierarchy of neurochemical systems	64
Emotion I: peripheral physiological arousal	65
Emotion II: display and communication	72
Emotion III: subjective experience of affective feelings and desires 1 – arousal and reward-punishment mechanisms	84
Emotion III: subjective experience of affective feelings and desires 2 – selfish competition versus prosocial cooperation	96
Summary and conclusions	139

<b>4 Attachment: the evolution, development, and neurochemistry of sociality</b>	<b>145</b>
The evolutionary biology of natural law: the state of nature and the social contract	145
Communication and the evolution of social organization	147
The evolution of sociality	152
The development of sociality	174
The neurochemistry of sociality	183
Conclusions: emotion, communication, and social organization	200
<b>PART III: Higher-level emotions: an ecological-systems view</b>	<b>203</b>
<b>5 Cognitive and linguistic emotions</b>	<b>205</b>
From biological to higher-level emotions	205
Cognitive emotions: from awe to ennui	209
Language and emotion	220
Summary and discussion	244
<b>6 Social emotions</b>	<b>246</b>
The nature of social structure	247
Attachment and social emotions	255
Self-conscious emotions	257
An ecological-systems view of social emotions	260
Attachment and social emotions	269
Research on primary social emotions	271
Evidence supporting the ecological-systems model	284
Advantages of the ecological-systems approach	292
Conclusions	295
<b>7 Moral emotions: the passions of civility</b>	<b>296</b>
Gust/disgust and moral emotions	297
The development of morality	298
The need for social structure	304
The neuroscience of morality	316
Primary moral emotions	331
The morality of subjugation: authoritarianism and pseudospeciation	341
The GREAT emotions	352
Conclusions: doing well, doing good, destroying the enemy, and avoiding exploitation	361
<i>Bibliography</i>	363
<i>Index</i>	423
