

Foodborne Pathogens

Microbiology and Molecular Biology

edited by
Pina M. Fratamico,
Arun K. Bhunia,
and James L. Smith

Caister Academic Press

Contents

Contributors	vii
1 Molecular Approaches for Detection, Identification, and Analysis of Foodborne Pathogens	1
Pina M. Fratamico and Darrell O. Bayles	
2 Animal and Cell Culture Models for Foodborne Bacterial Pathogens	15
Arun K. Bhunia and Jennifer L. Wampler	
3 Biosensor-based Detection of Foodborne Pathogens	33
George P. Anderson and Chris Rowe Taitt	
4 Molecular Typing and Differentiation of Foodborne Bacterial Pathogens	51
Franco Pagotto, Nathalie Corneau, Chris Scherf, Peter Leopold, Clifford Clark, and Jeffrey M. Farber	
5 Stress Responses of Foodborne Pathogens, with Specific Reference to the Switching on of Such Responses	77
Robin J. Rowbury	
6 Viable but Nonculturable Bacteria in Food Environments	99
James D. Oliver	
7 Modeling Pathogen Behavior in Foods	113
Mark L. Tamplin	
8 Foodborne and Waterborne Enteric Viruses	121
Gary P. Richards	
9 Foodborne and Waterborne Protozoan Parasites	145
Ynes Ortega	

10	Foodborne Mycotoxins: Chemistry, Biology, Ecology, and Toxicology	163
	Maribeth A. Cousin, Ronald T. Riley, and James J. Pestka	
11	<i>Yersinia enterocolitica</i>	227
	Truls Nesbakken	
12	<i>Vibrio</i> species	251
	Mitsuaki Nishibuchi and Angelo DePaola	
13	<i>Staphylococcus aureus</i>	273
	George C. Stewart	
14	<i>Campylobacter</i> Infections	285
	Irving Nachamkin and Patricia Guerry	
15	<i>Listeria monocytogenes</i>	295
	George C. Paoli, Arun K. Bhunia, and Darrell O. Bayles	
16	<i>Salmonella</i> Species	327
	Helene L. Andrews and Andreas J. Bäumler	
17	<i>Shigella</i> Species	341
	Keith A. Lampel	
18	Diarrhea-inducing <i>Escherichia coli</i>	357
	James L. Smith and Pina M. Fratamico	
19	<i>Clostridium botulinum</i> and <i>Clostridium perfringens</i>	383
	John S. Novak, Michael W. Peck, Vijay K. Juneja, and Eric A. Johnson	
20	<i>Bacillus cereus</i>	409
	Per Einar Granum	
21	Terrorism and the Food Supply	421
	Jeremy Sobel	
22	Look What's Coming Down the Road: Potential Foodborne Pathogens	427
	James L. Smith and Pina M. Fratamico	
	Index	447
