3. DEVELOPING THE PROPOSAL	67
Interactions of student and academic advisor Students with disabilities Choosing the topic for study Foreign students in T/D study Personal criteria for student use Using libraries and other information sources Summary	
4. PREPARATION OF THE PROPOSAL	97
Getting started Outlining the proposal Filling in the outline Research design Research methodology Make software your servant Summary	
5. THE THESIS OR DISSERTATION COMMITTEE	143
Functions of the committee Student/committee negotiations Maintaining communication Selecting the committee members Committee member roles Summary	
6. APPROVAL OF THE OVERVIEW	167
Characteristics of a sound overview Purposes of the proposal overview meeting Suitability of the topic Consultation with committee members Coordination role of the advisor After the overview meeting Summary	
7. CONDUCT OF THE STUDY	199
Time Computer usage Use of private information Obligations to human subjects Animal subjects in research Material aid for student research Student dropouts in the research stage Summary	

Contents	xi
8. WRITING THE MANUSCRIPT	237
The thesis/dissertation format An approach to the first draft Using advice and technical assistance The review of the first draft When the writing is finished	
Summary	
9. DEFENSE OF THE THESIS OR DISSERTATION	263
Structure of the oral examination Preparation for the examining committee session Conduct of the oral examination Decision making regarding the oral defense Follow-up after approval or disapproval	
Summary	
10. THE COMPLETED THESIS OR DISSERTATION AND FUTURE GROWTH	283
After the research is approved Writing for publication Improvement of one's professional or academic discipline Follow-up studies based on T/D research Reinforcement for follow-up Future trends	
Summary	
<i>Appendix A: Suggested Proposal and Project Guidelines</i>	303
<i>Appendix B: Course Outline</i>	309
<i>Bibliography</i>	315
<i>Index</i>	327
