

# Health Psychology

SEVENTH EDITION

Biopsychosocial Interactions

**EDWARD P. SARAFINO | TIMOTHY W. SMITH**

**International Student Version**

# BRIEF CONTENTS

---

---

## **PART I An Introduction: Basic Issues and Processes 1**

---

*Chapter 1* An Overview of Psychology and Health 1

---

## **PART II Stress, Illness, and Coping 28**

---

*Chapter 2* Stress—Its Meaning, Impact, and Sources 28

*Chapter 3* Stress, Biopsychosocial Factors, and Illness 52

*Chapter 4* Coping With and Reducing Stress 81

---

## **PART III Lifestyles to Enhance Health and Prevent Illness 102**

---

*Chapter 5* Health-Related Behavior and Health Promotion 102

*Chapter 6* Substance Use and Abuse 133

*Chapter 7* Nutrition, Weight Control and Diet, Exercise, and Safety 165

---

## **PART IV Becoming Ill and Getting Medical Treatment 195**

---

*Chapter 8* Using Health Services 195

*Chapter 9* In the Hospital: The Setting, Procedures, and Effects on Patients 221

---

## **PART V Physical Symptoms: Pain and Discomfort 248**

---

*Chapter 10* The Nature and Symptoms of Pain 248

*Chapter 11* Managing and Controlling Clinical Pain 273

---

## **PART VI Chronic and Life-Threatening Health Problems 295**

---

*Chapter 12* Serious and Disabling Chronic Illnesses: Causes, Management, and Coping 295

*Chapter 13* Heart Disease, Stroke, Cancer, and AIDS: Causes, Management, and Coping 323

---

## **PART VII Looking to the Future 353**

---

*Chapter 14* What's Ahead for Health Psychology? 353

---

## **APPENDIX The Body's Physical Systems 365**

---

# CONTENTS

## PART I An Introduction: Basic Issues and Processes 1

### Chapter 1 An Overview of Psychology and Health 1

#### What Is Health? 2

An Illness/Wellness Continuum 2

Illness Today and in the Past 2

#### Viewpoints From History: Physiology, Disease Processes, and the Mind 5

Early Cultures 5

Ancient Greece and Rome 5

The Middle Ages 5

The Renaissance and After 6

#### Seeing A Need: Psychology's Role in Health 7

Problems in the Health Care System 7

"The Person" in Health and Illness 7

 *Assess Yourself:* What's Your Lifestyle Like? 8

How The Role of Psychology Emerged 10

 *Clinical Methods and Issues:* Behaviorism's Legacy: Progress in Health Psychology's Goals 11

Health Psychology: The Profession 12

#### Current Perspectives on Health and Illness 12

The Biopsychosocial Perspective 12

Life-Span and Gender Perspectives 15

#### Relating Health Psychology to Other Science Fields 16

Related Fields 16

 *Highlight:* Related Nonpsychology Careers 17

Health and Psychology Across Cultures 18

#### Research Methods 19

Experiments 20

Correlational Studies 22

Quasi-Experimental Studies 22

Genetics Research 24

## PART II Stress, Illness, and Coping 28

### Chapter 2 Stress—Its Meaning, Impact, and Sources 28

#### Experiencing Stress in Our Lives 29

What Is Stress? 29

Appraising Events as Stressful 30

 *Clinical Methods and Issues:* Posttraumatic Stress Disorder (PTSD) 32

Dimensions of Stress 32

#### Biopsychosocial Aspects of Stress 33

Biological Aspects of Stress 33

Psychosocial Aspects of Stress 35

#### Sources of Stress Throughout Life 38

Sources Within the Person 38

Sources in The Family 39

Sources in the Community and Society 41

 *Highlight:* Gender Differences in Caregiving? 42

#### Measuring Stress 44

 *Highlight:* Does Environmental Stress Affect Reactivity to New Stressors? 44

Physiological Arousal 45

Life Events 46

Daily Hassles 47

Chronic Stressors in Specific Domains 48

#### Can Stress Be Good For You? 48

 *Assess Yourself:* Hassles in Your Life 48

### Chapter 3 Stress, Biopsychosocial Factors, and Illness 52

#### Psychosocial Modifiers of Stress 53

Social Support 53

 *Assess Yourself:* How Much Emotional Support Do You Get? 55

A Sense of Personal Control 58

 *Clinical Methods and Issues:* Social Support, Therapy, and Cognitive Processes 59

Personality as Resilience and Vulnerability 62

Type A Behavior and Beyond 65

#### How Stress Affects Health 68

Stress, Behavior, and Illness 69

Stress, Physiology, and Illness 69

Psychoneuroimmunology 71

 *Highlight:* Stress and Wound Healing 73

#### Psychophysiological Disorders 74

Digestive System Diseases 74

Asthma 74

Recurrent Headache 75

Other Disorders 75

#### Stress and Cardiovascular Disorders 76

Hypertension 76

Coronary Heart Disease 78

 *Highlight:* Does Acculturation Increase Blood Pressure? 78

#### Stress and Cancer 79

## Chapter 4 Coping With and Reducing Stress 81

### Coping with Stress 82

What is Coping? 82

Functions and Methods of Coping 82

Assess Yourself: Your Focuses in Coping 83

### Reducing the Potential for Stress 87

Enhancing Social Support 87

Highlight: Does Religiousness Reduce Stress and Enhance Health? 87

Improving One's Personal Control 88

Organizing One's World Better 88

Highlight: The Amish Way of Social Support in Bereavement 89

Exercising: Links to Stress and Health 89

Preparing for Stressful Events 90

### Reducing Stress Reactions: Stress Management 91

Medication 91

Behavioral and Cognitive Methods 91

Massage, Meditation, and Hypnosis 96

Clinical Methods and Issues: Treating Insomnia 96

Highlight: Can Increasing Positive Emotions Enhance Health? 98

### Using Stress Management to Reduce Coronary Risk 98

Modifying Type A Behavior 98

Treating Hypertension 100

## PART III Lifestyles to Enhance Health and Prevent Illness 102

## Chapter 5 Health-Related Behavior and Health Promotion 102

### Health and Behavior 103

Lifestyles, Risk Factors, and Health 103

Highlight: Two Health Behaviors: Breast and Testicular Examinations 105

Interdisciplinary Perspectives on Preventing Illness 106

Problems in Promoting Wellness 107

### What Determines People's Health-Related Behavior? 108

General Factors in Health-Related Behavior 109

The Role of Beliefs and Intentions 111

The Role of Less Rational Processes 115

### Developmental, Gender, and Sociocultural Factors in Health 117

Development and Health 117

Gender and Health 119

Sociocultural Factors and Health 120

### Programs for Health Promotion 121

Methods for Promoting Health 122

Clinical Methods and Issues: Dialogues to Help People Stop Smoking 123

Promoting Health in Schools and Religious Organizations 125

Worksite and Community-Based Wellness Programs 126

Electronic Interventions For Health Promotion 126

Prevention With Specific Targets: Focusing on AIDS 127

Assess Yourself: Your Knowledge about AIDS 128

## Chapter 6 Substance Use and Abuse 133

### Substance Abuse 134

Addiction and Dependence 134

Processes Leading to Dependence 134

### Smoking Tobacco 136

Who Smokes and How Much? 136

Why People Smoke 138

Highlight: Do Curiosity and Susceptibility "Kill the Cat?" 139

Smoking and Health 141

Highlight: Does Someone Else's Smoking Affect Your Health? 143

### Alcohol Use and Abuse 144

Who Drinks, and How Much? 145

Assess Yourself: What's True about Drinking? 145

Why People Use and Abuse Alcohol 147

Assess Yourself: Do You Abuse Alcohol? 147

Drinking and Health 148

Highlight: Drinking—Games People Play 149

### Drug Use and Abuse 150

Who Uses Drugs, and Why? 150

Highlight: Types and Effects of Drugs 151

Drug Use and Health 152

### Reducing Substance Use and Abuse 152

Preventing Substance Use 152

Quitting a Substance Without Therapy 155

Treatment Methods to Stop Substance Use and Abuse 156

Highlight: Where Should Treatment Occur, and What Should Be the Goals and Criteria for Success? 157

Clinical Methods and Issues: Behavioral Methods for Treating Substance Abuse 159

Dealing With the Relapse Problem 161

## Chapter 7 Nutrition, Weight Control and Diet, Exercise, and Safety 165

### Nutrition 166

Components of Food 166

What People Eat 167

Nutrition and Health 168

### Weight Control and Diet 172

Desirable and Undesirable Weights 172

Becoming Overly Fat 173

Highlight: Do "Fat-Bugs" Lead to Overweight? 175

Dieting and Treatments to Lose Weight 178

Highlight: Which "Carbs" to Avoid 179

-  **Clinical Methods and Issues: Problem-Solving Training to Control Weight** 181

Anorexia and Bulimia 183

-  **Assess Yourself: Your Weight Control Patterns** 183

**Exercise** 185

-  **Highlight: Types and Amounts of Healthful Exercise** 185

The Health Effects of Physical Activity 187

Who Gets Enough Exercise, Who Does Not—and Why? 188

Promoting Exercise Behavior 189

**Safety** 191

Accidents 191

Environmental Hazards 192

## **PART IV Becoming Ill and Getting Medical Treatment 195**

### **Chapter 8 Using Health Services 195**

**Types of Health Services** 196

Specialized Functions of Practitioners 196

Office-Based and Inpatient Treatment 196

Universal Health Care Systems 197

A Non-Universal Health Care System: The Case of the US 197

**Perceiving and Interpreting Symptoms** 198

Perceiving Symptoms 199

Interpreting and Responding to Symptoms 200

-  **Highlight: Symptoms by Suggestion?** 201

**Using and Misusing Health Services** 202

Who Uses Health Services? 202

Why People Use, Don't Use, and Delay Using Health Services 204

-  **Highlight: A New Meaning for "Diehard" Sports Fan** 206

Using Complementary and Alternative Medicine 207

Problematic Health Service Usage 207

**The Patient-Practitioner Relationship** 208

Patient Preferences for Participation in Medical Care 208

The Practitioner's Behavior and Style 209

-  **Highlight: Fighting for Your Life** 209

The Patient's Behavior and Style 211

-  **Assess Yourself: Do You Know Medical Terms' Meanings?** 212

**Compliance: Adhering to Medical Advice** 213

Extent of the Nonadherence Problem 213

Why Patients Do and Do Not Adhere to Medical Advice 214

Patient-Practitioner Interactions 216

Increasing Patient Adherence 217

-  **Clinical Methods and Issues: How to Present Medical Information** 218

**Focusing on Prevention** 219

### **Chapter 9 In the Hospital: The Setting, Procedures, and Effects on Patients 221**

**The Hospital—Its History, Setting, and Procedures** 222

How the Hospital Evolved 222

The Organization and Functioning of Hospitals 223

-  **Assess Yourself: Who's Who in Physician Care** 224

Roles, Goals, and Communication 224

The Impact of the "Bottom Line" 225

**Being Hospitalized** 226

Relations with the Hospital Staff 226

Sick-Role Behavior in the Hospital 228

**Emotional Adjustment in the Hospital** 229

Coping Processes in Hospital Patients 229

Preparing Patients for Stressful Medical Procedures 231

-  **Highlight: Lamaze Training as a Method of Psychological Preparation for a Medical Procedure** 233

When the Hospitalized Patient is a Child 234

-  **Clinical Methods and Issues: Preparing Children for Impending Hospitalization** 236

**How Health Psychologists Assist Hospitalized Patients** 238

Initial Steps in Helping 238

Tests for Psychological Assessment of Medical Patients 239

Promoting Patients' Health and Adjustment 240

**When the Illness is Terminal** 240

The Patient's Age 240

Psychosocial Adjustments to Terminal Illness 241

Medical and Psychological Care of Dying Patients 243

-  **Assess Yourself: Your Living Will Choices** 243

A Place to Die—Hospital, Home, or Hospice? 244

-  **Clinical Methods and Issues: Saying Goodbye** 245

## **PART V Physical Symptoms: Pain and Discomfort 248**

### **Chapter 10 The Nature and Symptoms of Pain 248**

**What Is Pain?** 249

The Qualities and Dimensions of Pain 249

Perceiving Pain 251

-  **Highlight: Acute Pain in Burn Patients** 252

**Theories of Pain** 254

Early Theories of Pain 254

The Gate-Control Theory of Pain 255

-  **Highlight: Inducing Pain in Laboratory Research** 255

**Biopsychosocial Aspects of Pain** 258

Neurochemical Transmission and Inhibition of Pain 258  
 Personal and Social Experiences and Pain 259

🔦 *Highlight: Placebos and Pain* 260

Emotions, Coping Processes, and Pain 262

🔦 *Clinical Methods and Issues: Assessing Difficulty Coping with Pain* 263

**Assessing People's Pain** 264

Self-Report Methods 265

🔦 *Assess Yourself: Describing Your Pain* 267

Behavioral Assessment Approaches 268

Psychophysiological Measures 269

**Pain in Children** 270

Pain and Children's Sensory and Cognitive Development 270

Assessing Pain in Children 270

## **Chapter 11 Managing and Controlling Clinical Pain** 273

**Clinical Pain** 274

Acute Clinical Pain 274

Chronic Clinical Pain 274

**Medical Treatments for Pain** 275

Surgical Methods for Treating Pain 276

Chemical Methods for Treating Pain 276

🔦 *Highlight: Types of Pain-Relieving Chemicals* 277

**Behavioral and Cognitive Methods for Treating Pain** 279

The Operant Approach 279

Fear Reduction, Relaxation, and Biofeedback 280

Cognitive Methods 283

🔦 *Clinical Methods and Issues: Guiding a Client to Pain Redefinition* 286

**Hypnosis and Interpersonal Therapy** 286

🔦 *Assess Yourself: Would Behavioral or Cognitive Methods Help Your Pain?* 287

Hypnosis as a Treatment for Pain 287

Interpersonal Therapy for Pain 288

**Physical and Stimulation Therapies for Pain** 289

Stimulation Therapies 289

Physical Therapy 290

**Pain Clinics** 291

Multidisciplinary Programs 291

🔦 *Highlight: Physical Activity and Back Pain* 292

Evaluating the Success of Pain Clinics 293

## **PART VI Chronic and Life-Threatening Health Problems** 295

### **Chapter 12 Serious and Disabling Chronic Illnesses: Causes, Management, and Coping** 295

**Adjusting to a Chronic Illness** 296

Initial Reactions to Having a Chronic Condition 296

Influences on Coping with a Health Crisis 296

The Coping Process 299

**Impacts of Different Chronic Conditions** 300

Asthma 301

Epilepsy 303

🔦 *Highlight: What to Do for a Seizure* 303

Nervous System Injuries 304

Diabetes 307

🔦 *Assess Yourself: Do You Have Diabetes?* 308

🔦 *Highlight: Self-Managing Diabetes* 310

Arthritis 312

Alzheimer's Disease 315

**Psychosocial Interventions for People with Chronic Conditions** 317

Educational, Social Support, and Behavioral Methods 318

Relaxation and Biofeedback 319

Cognitive Methods 319

🔦 *Clinical Methods and Issues: Treating Asthma with Biofeedback and Relaxation* 320

Interpersonal and Family Therapy 320

Collaborative or Integrated Care Approaches 321

### **Chapter 13 Heart Disease, Stroke, Cancer, and AIDS: Causes, Management, and Coping** 323

**Coping with and Adapting to High-Mortality Illness** 324

Adapting While the Prospects Seem Good 324

Adapting in a Recurrence or Relapse 325

**Heart Disease** 326

Who is at Risk of Heart Disease, and Why? 326

🔦 *Highlight: Anatomy of a Heart Attack* 327

🔦 *Assess Yourself: Are You at Risk for Heart Disease?* 328

Medical Treatment and Rehabilitation of Cardiac Patients 329

The Psychosocial Impact of Heart Disease 330

Psychosocial Interventions for Heart Disease 332

**Stroke** 333

Causes, Effects, and Rehabilitation of Stroke 333

Psychosocial Aspects of Stroke 335

🔦 *Clinical Methods and Issues: Stroke Rehabilitation for Visual Neglect* 336

**Cancer** 336

The Prevalence and Types of Cancer 337

The Sites, Effects, and Causes of Cancer 337

Diagnosing and Treating Cancer 339

The Psychosocial Impact of Cancer 342

Psychosocial Interventions for Cancer 344

Childhood Cancer 345

🔦 *Highlight: Can Psychosocial Interventions Improve Cancer Survival?* 345

**AIDS** 346

Risk Factors, Effects, and Treatment of AIDS 346

The Psychosocial Impact of AIDS 347

Psychosocial Interventions for AIDS 349

**The Survivors: And Life Goes On** 350

Physical and Psychosocial Impact	350
Psychosocial Interventions for Bereavement	351
Reaching a Positive Adaptation	351

## **PART VII Looking to the Future 353**

### **Chapter 14 What's Ahead for Health Psychology? 353**

<b>Goals for Health Psychology</b>	354
Enhancing Illness Prevention and Treatment	354
Improving Efforts for Helping Patients Cope	355
Identifying Evidence-Based Interventions and Cost-Benefit Ratios	355
Enhancing Psychologists' Acceptance in Medical Settings	356
<b>Careers and Training in Health Psychology</b>	357
Career Opportunities	357
 <i>Clinical Methods and Issues: Psychologists in the Primary Care Team</i>	357
Training Programs	358
<b>Issues and Controversies for the Future</b>	358
Environment, Health, and Psychology	358
Quality of Life	359
Ethical Decisions in Medical Care	359
<b>Future Focuses in Health Psychology</b>	360
Life-Span Health and Illness	360
 <i>Assess Yourself: Some Ethical Dilemmas: What Do You Think?</i>	361
Sociocultural Factors in Health	362
Gender Differences and Women's Health Issues	363
<b>Factors Affecting Health Psychology's Future</b>	363

## **APPENDIX The Body's Physical Systems 365**

<b>Module 1: The Nervous System</b>	366
How The Nervous System Works	366
The Central Nervous System	367
 <i>Clinical Methods and Issues: Biofeedback Treatment for Paralysis</i>	371
The Peripheral Nervous System	371

<b>Module 2: The Endocrine System</b>	373
The Endocrine and Nervous Systems Working Together	373
Adrenal Glands	374
Other Glands	374
 <i>Highlight: Our Physiological Individuality</i>	375
<b>Module 3: The Digestive System</b>	376
Food's Journey Through Digestive Organs	376
Using Nutrients in Metabolism	378
 <i>Assess Yourself: How Many Calories Do You Burn While Resting?</i>	379
<b>Module 4: The Respiratory System</b>	379
The Respiratory Tract	379
Respiratory Function and Disorders	380
<b>Module 5: the Cardiovascular System</b>	381
The Heart and Blood Vessels	382
Blood Pressure	383
Blood Composition	384
Cardiovascular Disorders	385
<b>Module 6: the Immune System</b>	385
Antigens	386
The Organs of the Immune System	386
Soldiers of the Immune System	387
Defending the Body with an Immune Response	388
 <i>Highlight: When Immune Functions are Absent</i>	389
Less-than-Optimal Defenses	390

## **Glossary 393**
