om 13.30 uur precies

door

Kristiana Haryanti
geboren op 15 december 1967
te Semarang (Indonesië)

Table of Contents

Chapter 1. Overview of the LMX-Java Project

1. Introduction	3
2. Purpose of the LMX-Java project	5
3. Thesis structure	6
4. References	8

Chapter 2. Socialization of newcomers in an organization

1. Introduction	13
2. Two major theories of socialization entry	15
2.1 Role theory	15
2.2 Social exchange theory	16
3. Leader and newcomer roles in organizations	18
4. The Roles of Superior and Subordinate in Javanese Culture	19
4.1 Introduction to Javanese Culture	19
4.2 Two basic principles of Javanese life	20
4.3 Supervisor-subordinate roles and relationship in Javanese culture	20
5. Applicability of Leader-Member Exchange theory to the Javanese context	22
6. References	25

Chapter 3. Design of the LMX-Java Project

1. Introduction	31
2. Objective of the project	32
3. Major research questions in the LMX-Java project	32
4. Pilot study	33
4.1. Item translations	33
4.2. Design of the pilot study	34
4.3. Acquisition of participants	34
4.4. Instruments in pilot study	35
4.5. Acquisition of participants for second pilot study	36
4.6. Instruments in second pilot study	36
4.7. Organizational Culture Inventory (OCI) pilot study	36
4.8. NEO PI-R pilot study	38
5. Data analysis in pilot studies	39
6. Results of pilot studies	39
6.1. Results of pilot study for LMX questionnaire	39
6.2. Results of pilot study for the job satisfaction questionnaire	39
6.3. Results of pilot study for job performance questionnaire	40
6.4. Results of pilot study for organization citizenship behavior (OCB) questionnaire	40
6.5. Results of pilot study for condition of trust inventory (CTI)	40
6.6. Results of pilot study for liking questionnaire	40
6.7. Results of pilot study for the organizational justice questionnaire	41
6.8. Results of pilot study for subordinate's estimated potential (Pygmalion) questionnaire	41
6.9. Results of pilot Study for OCI	41
6.10. Results of pilot study for NEO PI-R	44
7. Main study: LMX-Java project	44
7.1. Design of LMX-Java project	44
7.2. Inclusion characteristics of respondents	45
7.3. Procedure for recruiting respondents	46
7.4. The questionnaires	48
7.5. Data Collection	48
7.6. Respondents	51
7.7. Data analysis	53
8. Concluding summary	53
9. References	53

Chapter 4. Leader-Member Exchange relationships among supervisors and their new-workers in Central-Java Organization

1.	Introduction	59
2.	The History of Leader Member Exchange (LMX) Theory	61
3.	LMX Dimensions	62
4.	Development of leader member exchange	64
5.	The relation between LMX and liking	65
6.	The relation between quality of the LMX relationship and performance and job-satisfaction	66
6.1	Relation between LMX and job performance	66
6.2.	Job performance as mediator of a leader's and member's perceptions of the LMX relationship	66
6.3.	Relation of LMX to job satisfaction	67
7.	Method	67
7.1	Hypotheses	67
7.2.	Design of the study	69
7.3	Respondents	69
7.4	Instruments	69
7.5	Plan of analyses	71
8.	Results	71
8.1.	Characteristics of respondents	71
8.2	Structure of LMX-MDM in Indonesia	74
8.3	The uniqueness and the dynamics of the LMX relationship	79
8.4	Normative stability of relationship quality in leaders and new workers.	90
8.5	Divergent validity of LMX-MDM-I with regard to personality	91
8.6	The correspondence between a leader's and worker's perceptions of the LMX relationship	92
8.7	The relationship between LMX quality and liking	98
8.8	The relation between quality of the LMX relationship and job performance and job satisfaction	101
9	Discussion	106
9.1	A framework for making conclusions	106
9.2	Comparison of major hypothesis-specific results with those of other investigations	111
9.3	Is LMX theory a valid theory for Indonesia?	115
9.4	Preliminary conclusions about the validity of the LMX-MDM-I questionnaire	116
10	References	116
	Appendices	123

Chapter 5 Trust between supervisors and newcomers

1.	Introduction	131
2.	The concept of trust	132
2.1	Trust characteristics	133
2.2	Trust within in a collectivist culture	134
2.3	The leader as initiator of trust	134
2.4	Relation between trust and LMX	134
2.5	Consequences of trust for employees outcomes	135
3.	Method	136
3.1	Research questions	136
3.2	Design of the study	136
3.3	Instruments	137
4.	Results	140
4.1	Use of bases for trust among newcomers and their supervisors	140
4.2	Construct validity of the CTI-I.	143
4.3	Trust change in newcomers and supervisors between T1 and T2	147
4.4	The intra-dyadic trust relation between supervisor and newcomer	154
4.5	The relation between trust and LMX quality	161
4.6	Consequences of trust	171
5	Discussion	175
6.	Concluding comments	182
7.	References	183

Chapter 6. Organizational Citizenship Behavior (OCB) of newcomers to Central Java organizations

1. Introduction	197
1.1 Measurement and dimensionality of OCB	199
1.2 Antecedents of OCB	200
1.3 Consequences of OCB	201
1.4 OCB socialization	202
2. Aims of the OCB study within the LMX-Java project	202
3. Method	203
3.1 Research questions	203
3.2 Design of the study	203
3.3 Respondents	204
3.4 Instruments	204
4. Results	205
4.1 Measuring OCB-O and OCB-I	205
4.2 The agreement among newcomers, supervisors, and peers on newcomer's OCB	212
4.3 Newcomer's OCB and its change, based on information from newcomer, supervisor, and peer at T1 and T2	214
4.4 The relationship between personality, organizational citizenship behavior, job satisfaction, task performance, and quality of the leader-member exchange relationship	220
5. Discussion	230
6. Summary	234
7. References	235
Appendices	242

Chapter 7. Organizational Culture in Central Java Organizations

1. Introduction	255
1.1 The concept of organizational culture	255
1.2 Levels of analysis of the concept 'culture'	255
1.3 Definition of organizational culture	257
1.4 Assessing organizational culture	257
1.5 Quantitative instruments to assess organizational culture	258
1.6 The Organizational Culture Inventory (OCI)	260
1.7 Socialization into organizational culture	261
1.8 Correlation between organizational culture and LMX	261
2. Method	262
2.1 Research questions	262
2.2 Design of the study	262
2.3 Instruments	263
3. Results	263
3.1 Presence of norms from the point of view of individual employees	264
3.2 Can organizational units be characterized by a specific norm profile?	265
3.3 Norm-based dimensions differentiating among organizational units	268
3.4 Evidence for the existence of types of organizational culture based on the units' norm profiles	271
3.5 Socialization of newcomers into 'kesejarasan' organizational culture	273
4. Concluding summary of results	285
5. References	287
Appendices	290

Chapter 8. Reflections on the results of the LMX-Java project

1. Overview of the goals of the LMX-Java project	299
2. Evaluation of the main theory-relevant results	299
3. Evaluation of main practically relevant results	300
4. The lack of convergence between different sources of information.	300
5. Organizational culture	300
6. Results relevant for the practitioner in organizational psychology	301

7	Future research based on the LMX-Java project	301
	Summary	303
	Samenvatting	307
	Acknowledgements	312
	Curriculum Vitae	313
