Preface	7
Acknowledgements	8
List of abbreviations	9
Introduction and overview	10

Part 1 Structure and function

1	Mouth and teeth	12
2	Salivary glands	14
3	Tongue and pharynx	16
4	Oesophagus	18
5	Stomach	20
6	Duodenum	22
7	Pancreas	24
8	Liver	26
9	Biliary system	28
10	Hepatic portal system	30
11	Jejunum and ileum	32
12	Caecum and appendix	34
13	Colon	36
14	Rectum and anus	38

Part 2 Integrated function

15	Enteric motility	40
16	Enteric endocrine system	42
17	Enteric and autonomic nerves	44
18	Mucosal immune system	46
19	Digestion and absorption	48
20	Digestion of carbohydrates, proteins and fats	50
21	Digestion of vitamins and minerals	52
22	Nutrition	54
23	Fluid and electrolyte balance	56

24	Hepatic metabolic and synthetic function	58
25	Hepatic detoxification and excretion	60

Part 3 Disorders and diseases

26	Nausea and vomiting	62
27	Diarrhoea	64
28	Constipation	66
29	Functional disorders and irritable bowel syndrome	68
30	Gastro-oesophageal reflux and hiatus hernia	70
31	Peptic ulcer and <i>Helicobacter pylori</i>	72
32	Gastroenteritis and food poisoning	74
33	Gastrointestinal system infections	76
34	Ulcerative colitis and Crohn's disease	78
35	Celiac disease	80
36	Obesity and malnutrition	82
37	Colon and rectal cancer	84
38	Gastrointestinal, pancreatic and liver tumours	86
39	Haemorrhoids and anorectal disease	88
40	Gallstones and pancreatitis	90
41	Hepatitis and acute liver disease	92
42	Cirrhosis and chronic liver disease	94

Part 4 Diagnosis and treatment

43	Clinical assessment and blood tests	96
44	Endoscopy	98
45	Radiology and imaging	100
46	Functional tests	102
47	Pharmacotherapy	104
48	Gastrointestinal surgery	106

Index	109
